▼ Pumps shown, from top to bottom: P-802, P-842, P-202, P-142

- Lightweight and compact design
- Durable glass-filled nylon reservoir and nylon encapsulated aluminium pump base for maximum corrosion resistance
- Two-speed operation reduces handle strokes by as much as 78% over single speed pumps
- Lower handle effort to minimize operator fatigue
- Integral 4-way valve on P-842 for operation of doubleacting cylinders
- Handle lock and lightweight construction for easy carrying
- Large oil capacities to power a wide range of cylinders
- Non-conductive fiberglass handle for operator safety
- Internal pressure relief valve for overload protection
- Cylinder-pump set SCR-254H used to support the construction while monitoring pressure and load with the gauge.
